

STARSIL[®] 星硅[®]

Formaldehyde free

Toluene free

Water proof

Strong adhesion

Product parameters

Eiken Starsil - the inheritor of the world's first silicone glue

Product parameters:

Product name: Eiken Starsil 9280 high-grade neutral silicone weathering adhesive

Specifications: 300ml/pc

Product color: Black, White

Dosage calculation: 10-12m long strip (test: 5mm wide strip), family bathroom (1-2 strips), kitchen (1 strip).

Shelf life: 12 months.

Product features: strong adhesion, waterproof sealing, anti-fouling, easy to clean, high and low temperature resistance.

Scope of application: For general building materials such as ceramic, marble, rubber, plastic, glass, metal, mirror, concrete, wood, etc.

High temperature resistance Low temperature resistance

After curing, it will not become brittle, hardened and cracked at a low temperature of $-50\text{ }^{\circ}\text{C}$

It will not soften and degrade at high temperature of $+130\text{ }^{\circ}\text{C}$, and always maintain good strength and elasticity
